SAFETY INFORMATION

SAFETY FOLDERS

Primary caretakers of the folders are the classroom teacher and office manager. It is important that the folders be available to substitute when the teacher is out. Contents include class rosters, student and staff list with special needs, emergency procedures, directions, and reference numbers. Take the folder with you when evacuating. Use folder cover to indicate your status; red- missing, injured, or extra students and staff or green- assigned student and staff accounted for and all ok.

ACCOUNTABILITY PLAN

Conducting Roll During and After an Emergency Incident

In an emergency incident, it is critical to know the whereabouts of all students and staff assigned to the site as quickly as possible. The following directions and procedures will provide a systematic and thorough process for completing this important task. The Incident Commander or Operations Chief will initiate the accountability plan.

Teachers or Staff will take attendance via Catapult or complete the Emergency Incident Roll Form to account for all students. Indicate missing and injured students or staff assigned to your room. If you have additional students, staff, or other people in your room during the incident, record this information in the Chat Box in Catapult or on the form. Do not release these people, or anyone else, until directed to do so by administration or law enforcement.

Office staff will contact each assigned room to verify response and collect emergency incident roll call information. Use Catapult, email, cell phone, or runners (if safe to do so) to make contact with the room. Move quickly through the list. From classroom roll call information, create a master, site attendance roster that provides updated information of students and staff who are missing or injured. Missing student information will be cross-checked with daily attendance data to verify students attendance for the day (sick or early check-out), and if they are listed as “extra” in another class. Relay the master site-attendance roster to the Incident Commander or Operations Chief.

REUNIFICATION PLAN

Orderly Student Reunification System

During and after an emergency incident many parents will come to the school very quickly to pick up their children. Following the Accountability Plan, the site will account for each student and staff member. Implementing the Reunification Plan will provide the site with an orderly process to reunify students with their parents or guardians. The Incident Commander or Operations Chief will initiate the Reunification Plan.

ON-SITE

Evacuation Team Members will supervise the Student Staging Area (Evacuation Area). Evacuation Team will release students to the Reunification Team Member and record information on the Student Release form. The Student Release form will follow the student to the Reunification Area.

Security Team Members will supervise parents arriving to pick up their children at the Parent Staging Area. When it is safe to do so, escort or direct parents to the Reunification Area.

Reunification Team Runner will bring student to the Reunification Area for release to parent/guardian. Parents will sign in (Student Reunification form). Reunification Team Members will review proper parent identification before releasing student and collect the Student Reunification form. At the conclusion of the incident, give all Student Release forms to the Incident Commander or Operations Chief.

OFF-SITE

Evacuation Team Members initiate the Off-Site Evacuation Plan to move students and staff to the pre-designated Off-Site Evacuation Area. Evacuation Team Members work with District's Emergency Response Team to arrange pick-up and transportation of students and staff to the off-site location.

Evacuation Team Members will supervise students at the Off-Site Student Staging Area (Evacuation Area). Evacuation Team Members will release students to the Reunification Team Member and record information on the Student Release form. The Student Release form will follow the student.

Reunification Team Members will move to the off-site evacuation area and set-up the Off-Site Reunification Operation. The Reunification Team, with assistance from the District's Emergency Response Team, will supervise the Off-Site Parent Staging Area. Reunification Team runner will bring the student to the Parent Staging Area for release to parent/guardian. Parents arriving to pick up their student will sign in, (Student Reunification form). Reunification Team Members will review proper identification. At the conclusion of the incident, give all Student Release forms to the Incident Commander or Operations Chief.
