

A Trip Around the District - August 20, 2026

Natalia Lopez • 20 hours ago • Thursday, Aug 20 at 4:00 PM • **Orland Unified School District**

Career Technical Education Isn't Just for High School

Beginning this school year, C.K. Price Middle School students have the opportunity to explore Career Technical Education (CTE) through a new elective: Career Exploration. This is made possible through the Community Schools Partnership Program and Strong Workforce Program grants the district has been awarded.

The response to the new class offering has been incredible! Students are excited to enroll in the classes and will receive structured career exploration aligned with the available CTE pathways, many of which are available at Orland High School. By building early awareness, interest and readiness, the goal is to increase CTE participation and pathway completion at OHS preparing students for high-demand, high wage careers.

The current CTE pathways at OHS include:

Agriculture and Natural Resources

- Floral
- Sustainable Agriculture
- Welding
- Woodworking
- Ag Business
- Plant science
- Animal Science

Education and Child Development

- Child Development

Transportation

- Automotive Systems Diagnostics, Service and Repair

Patient Care Pathway

Fine Arts

- Media and Design
- Mixed Media (Ceramics)
- Publications

This week, Ms. Enke guided students through an online career interest survey designed to build early awareness, identify interests that align with pathways and emerging careers and industries. Throughout the year, students will be exposed to CTE programs through field trips to OHS and guest speakers from OHS, Butte college and community members who will share their careers, experiences and expertise.

The creation of this new program at CK Price strengthens the partnership between CK and OHS and is another example of the district's efforts to support college and career readiness for our entire student population. For CK students, it helps them envision themselves as future OHS Trojans, college students and members of a community workforce.

Be on the lookout this fall for information about a special hands-on CTE Lab Family Night, where students and their families will have the opportunity to explore some of these career pathways together!

We'd Love to Have You Volunteer!

As we head into fall, there will be many opportunities for parents and families to volunteer and participate in school events, classroom activities, and field trips. We'd love to have you involved!

Now is a great time to stop by the District Office to renew your volunteer status or complete the clearance process for the current school year. Getting cleared early means you'll be ready to join us when opportunities arise throughout the year.

Have questions about the volunteer process? Please contact the District Office at 530-865-1200. We appreciate the time, energy, and support our families give to our schools!

Upcoming Events

8/25/26 - Fairview Bullying Presentation

5:00 pm - 6:00 pm

9/10/26 - Mill Street Family BBQ & Soccer

Night 5:00 pm - 6:00 pm
