

### 3/5/26 -Food Service Report – Mike Bottarini, Director of Food Services.

1)With the Week off and the board report being due 2/23, there were only 10 days of meal service. I will include Feb/March numbers in the April update. At a glance the numbers look about average across all sites for the first 10 days of the month.

#### 2) Claims- February claim to be processed first week in March

#### News

3) Reached out to our Nutrition Analyst at the CDE and there is no longer a rule that meal times need to have a 2 hour period between servings, it is now a suggestion and not a requirement. This means that we are cleared to serve 2<sup>nd</sup> chance breakfast at Murdock. Currently working on the timing and logistics and should be able to begin by March 17<sup>th</sup> possibly earlier.

4) Submitted 15k Breakfast expansion grant for MES on 2/13/26 in hopes to get some new equipment for 2<sup>nd</sup> chance breakfast service.

5) Thursday Feb 26<sup>th</sup> testing buffalo wings and lemon pepper wings in Marisa Rodgers class

6) MES/ WHS / WIS / WCHS March testing

Breakfast – breakfast bowl – eggs, potato, sausage

Lunch- chicken enchilada

My apologies to the Board. Thursday March 5<sup>th</sup> is my daughter's 2<sup>nd</sup> Birthday so I will be unable to attend the board meeting. Thank you for your support and understanding.
