Rooming Types and Family Booking

Our registration system will automatically place students in quad occupancy and adults in single occupancy. To change, **AFTER registration:**

- **Chaperones:** If the adult passenger(s) desire to book as a family or stay in either double/triple/quad occupancy with another chaperone, it is up to the registering adult passenger(s) to acquire their roommate to qualify for the lesser per person prices. Once found, all roommates must send a notification email to PACE Travel stating the name of their agreed roommate. Family wishing to room together: Only one email is needed from the adult traveling. PACE Travel will update the respective accounts and change the balance to the desired occupancy rates once all emails have been received.
- **Students:** Any student/student rooming requests apart from Quad occupancy must be approved and submitted to PACE Travel by their school admin.
- All rooming assignments are subject to final school admin approval.
