2024-2025 School Accountability Report Card

(Published During the 2025-2026 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2025-26 School Description and Mission Statement

Thompson Peak Charter provides a hybrid model of education, offering a TK-12 blended personalized learning program in Lassen County and the counties that are contiguous. The Charter School's purpose is to provide opportunities for teachers, parents, students, and community members to improve pupil learning; encourage the use of different and innovative teaching methods; and provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system. LVS initiated the establishment of a Home School Academy with the purpose of providing support to families adhering to a more traditional homeschooling approach.

The school's mission and vision are as follows: Mission: Long Valley Charter School is an educational community, inspiring

2025-26 School Description and Mission Statement

each child to achieve their highest potential, providing opportunities for self-discovery, and preparing students for the challenges of a rapidly changing world. Vision: Long Valley Charter School envisions every student becoming lifelong learners, pursuing meaningful work, and participating in civic activities.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

The Thompson Peak Resource Center was leased through the 2021-22 school year and purchased during the 2022-23 school year. The building serves as an Independent Study Resource Center; students gather in small groups for instruction and support; this space is sufficient for its use. The school facility has been rated as excellent in safety, cleanliness, and adequacy and is in good repair. The school's insurance company completed an inspection in fall 2019 and identified no significant concerns.

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2024-25 Career Technical Education Programs

All 9th-12th grade students are served in independent study programs. The 24 current pathways include the required introductory, concentration and capstone courses. Students may select online curriculum, college courses, in-person or text-based courses. The Career and College Counselor works with students to identify options for job shadowing and internships.

Specific pathways offered include the following select pathways: Systems Diagnostics, Service & Repair (Transportation); Agricultural Mechanics, Agriscience, Animal Science, or Plant & Soil Science (Agriculture and Natural Resources); Game Design & Integration, Media Arts, Performing Arts, Photography (Arts, Media & Entertainment); Child Development and Education (Education, Child Development, and Family Services); Engineering Design (Engineering & Architecture); Fashion Design & Merchandising and Cosmetology (Fashion and Interior Design); Mental & Behavioral Health and Patient Care (Health Science and Medical Technology); Food Service & Hospitality and Hospitality, Tourism & Recreation (Hospitality, Tourism & Recreation); Software & Systems Development (Information and Communication Technologies); Welding & Materials Joining (Manufacturing & Product Development); Emergency Response, Legal Practices, and Public Safety (Public Services). The school is in its second year of a Building and Construction Pathway that earns students credits at Butte Community College.

The school has been making efforts in increasing dual and concurrent enrollment opportunities for students. TPC has currently established two dual enrollment college courses opportunities. The first course, affiliated with Butte Community College, focuses on the Building and Construction Pathway which began in 2021-22. The second course, provided by Feather River College, emphasizes College Readiness started 2020-21. Both have experienced an increase in enrollment since the initial

C. Engagement	State Priority: Parental Involvement The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.
---------------	---

2025-26 Opportunities for Parental Involvement
<p>As a charter school, Thompson Peak Charter School is founded on parent involvement. Parents are integral in the development of each student's learning plan. The Resource Center has a Parent-Teacher-Student Association (PTSA) run by parent members and meets monthly. The PTSA's purpose is to involve and empower parents in the learning community and support the efforts of student and staff. There is also an Advisory Council with elected members; this group reviews grant budgets, safety plans, and other State and Federal documents. Additionally, there are opportunities for volunteering at the resource center and on field trips as chaperones.</p> <p>For a schedule of meetings, contact the Thompson Peak Charter office at 257-7300.</p>

Fiscal Year 2024-25 Types of Services Funded

Programs and services provided Thompson Peak Charter in 2023-24 included response to intervention services to support academic needs. Foundational level mathematics courses were provided to small groups of middle and high school students. A self-paced Integrated Math I course was implemented to support completion of the high school math requirement. A career and college counselor met with all students in grades 7-12 and mental health counseling was available for general education students. The school employs a dedicated Curriculum and Instruction Administrator who works closely with staff to enhance instructional practices and support effective teaching strategies. The school ensures equitable access to technology by providing each student with a Chromebook and offering hotspots for internet connectivity. Comprehensive technical support is available through both the school and the county to address any technological challenges. To promote a safe and secure digital learning environment, student computer usage is monitored using GoGuardian; this program proactively alerts administrative staff to any incidents that may pose a concern for student safety, allowing timely intervention and support.

Professional Development

Annually, the plan for staff development is determined by both the needs assessment engaged in during the Local Control Accountability Plan (LCAP) process and a survey administered to staff. Schoolwide initiatives include improving mathematics and writing, mastery-based learning, and increasing opportunities for hands-on or project based learning. Staff indicate which initiatives and areas they need more support. In general, the school shares information in an assembly format with the staff as a whole group. The support is then personalized based on individual needs and progress.

The Curriculum and Instruction Administrator has provided a level of support for the staff in supporting effective curriculum training as well as organizing and facilitating professional development opportunities. These sessions have delved into areas

Professional Development

such as testing data analysis, teacher clarity regarding state standards, and response to intervention topics.

This table displays the number of school days dedicated to staff development and continuous improvement.
