**1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).**

Prop 28 funding has allowed our district to expand and enhance arts education opportunities for students. We continued to fund a 0.17 FTE music teacher position, ensuring students had ongoing access to music instruction throughout the school year. The funding also supported the purchase of sheet music and other instructional materials, enabling students to prepare for and perform both fall and spring concerts that showcased their talents and provided meaningful performance opportunities. In addition, Prop 28 funds were used to purchase equipment for a new media journalism course, which is expected to support the creation of an end-of-year video highlighting student experiences and school events. Students also benefited from participation in a music festival where they were able to perform and engage with peers from other programs. Finally, the funding provided professional development opportunities for our music teacher, helping to strengthen instructional practices and enhance the overall quality of arts education offered to students.
