

MOEMS[®]

Mathematical Olympiads for Elementary and Middle Schools

Mathematical Olympiads for Elementary and Middle Schools (MOEMS) is a math competition for 4th-6th (E division) and 6th-8th (M division) which is composed of 5 math tests given monthly Nov-March. The math questions are interesting and fun to solve and require some thinking out of the box. The students work on the questions alone, however all the students on the team contribute collaboratively to the team score. You do not have to be exceptional at math to try this, and you do not have to come to all sessions to participate. The MOEMS website has more information and practice questions. Cost: FREE. The E (elementary) division will meet in Room 4 at Los Perales Elementary School and the M (middle) division will meet in Room 6 at Joaquin Moraga Intermediate School – after school.
