Did you know...

Regular attendance in elementary school sets up a good pattern for your child's entire school career? A report published in 2008 by Columbia University's national Center for Children in Poverty found that children who missed 10% or more of their kindergarten year were the lowest-achieving group in first grade. Poor attendance in kindergarten and first grade may erase many of the benefits of preschool, even among those who started kindergarten with strong skills. Only 13% of children with poor attendance in kindergarten and first grade tested at grade level in reading as third graders, compared with 77% of those with good attendance in those early grades.

Show your child that school comes first by trying to save days off for illnesses and family emergencies. Also, please schedule routine doctor and dentist appointments for after school or during school breaks.

ATTENDANCE

Your child's daily attendance and participation is essential and required for their academic success during this time of blending learning. If your child is unable to attend school due to illness or other reasons, please contact the attendance clerk,
