Salad

What's for Lunch?

Chartwells and OUSD work together to ease the planning of school lunches. Breakfast is available as well, but this month, we thought we would find out what your favorites are at lunch time! NutriSlice is a great platform to survey the meals. Students and families can rate the food and provide feedback.

View the menu through NutriSlice at the OUSD website. All the school menus are available to view and adjust to meet dietary restrictions. New feature this school year: you can subscribe to your school's menu for monthly updates.
