What is the California Voting Rights Act ("CVRA")?

F3 Law

- Took effect January 1, 2003
 - Prohibits the use of "at-large" elections when such an election system:
 - "*impairs the ability of a protected class to elect candidates of its choice or its ability to influence the outcome of an election....*"
- (Elections Code §14027.)

What is a "protected class?"

F3 Law

- A class of voters who are members of a **race, color, or language minority group**, as this class is referenced and defined in the federal Voting Rights Act of 1965 (52 U.S.C. Sec. 10301 et seq.).

(Elections Code §14026(d).)

f3law.com | 3

What is "Racially Polarized Voting?"

F3 Law

- Voting in which there is a difference in the choice of candidates or other electoral choices that are preferred by voters in a **protected class**, and in the choice of candidates and electoral choices that are preferred by voters in the **rest of the electorate**.
- (Elections Code §14026(e).)

f3law.com | 4

Does not require intent

- The CVRA is far broader than its federal counterpart
- Much easier for a plaintiff to bring a claim against a government entity
- Proof of intent on the part of voters or elected officials to discriminate against a protected class is not required (Elections Code §14028(d).)

5

F3Law.com

Right to Attorneys' and Expert Fees

- CVRA grants a prevailing plaintiff the right to recover reasonable attorneys' fees **AND** expert witness fees.
- If district wins, it is **not** granted the same right.

(Elections Code §14030.)

F3Law.com | 6

What is a "By-Trustee Area" Election System

- *Only safe harbor from a CVRA claim*
- School district is divided into trustee areas
- A governing board member is elected from each trustee area
- Board members are elected **by only the registered voters in the particular trustee area** where the governing board member resides

7

F3Law.com

Current Step: Two Public Hearings

- Prior to the preparation of draft trustee voting area plans by the District's demographer
- Receive community comments and public testimony concerning:
 - The composition of potential trustee voting areas associated with the District's transition to a by-trustee area election system

F3 Law

Keep in mind...

- With a total population of **119,039**, each **Trustee Area will include *approximately 23,808 people***.
- The difference between the largest and smallest trustee areas can be no more than 2,380 people.
- Census Blocks vary significantly in shape, size, and population totals.
- Census Blocks generally are not to be “split” with a Trustee Area boundary line – since we would lose the accuracy of the population balancing count.

How should Trustee Area boundary lines be drawn???

Type of Feedback &
Commentary Being Solicited

"I would like to keep Neighborhood X and Neighborhood Y in the same trustee area..."

Type of Feedback &
Commentary Being Solicited

"I think

- Hwy 24 / Interstate 680
- Pleasant Hill Road
- Olympic Blvd
- Lafayette Reservoir area

. . . may make sense as a trustee area boundary because . . .

- It seems like a natural boundary
- It makes sense geographically
- It appropriately groups communities of interest

After Pre-Map Public Hearings

- Draw Draft Trustee Area Plans
 - Demographer to use 2020 Census Data and additionally permitted updated data.
 - Population must be as equal "as is practicable" – people, not citizens.
 - Ed Code section 1002: "...trustee areas shall be as nearly equal in population..."
 - A certain amount of deviation (10%) may be permitted.

Criteria for Consideration

- Comply with the U.S. Constitution.
- Comply with the California Constitution.
- **Population Balance:**
 - Each area shall contain nearly equal number of inhabitants
- **Comply with the Federal Voting Rights Act:**
 - Determine whether it is possible to create an election district or districts in which a minority group is sufficiently large and geographically compact to constitute a majority in a single-member district.

Criteria for Consideration

Order of priority:

- ☐ Contiguous
- ☐ Local Neighborhoods/Communities of Interest
- ☐ City/Census designated places
- ☐ Natural/artificial boundaries
- ☐ Geographical compactness

Other Criteria for Consideration:

- ☐ Other local considerations
- ☐ May not adopt boundaries for the purpose of favoring/discriminating against an incumbent, political candidate or political party.

Cities, CDPs, & Attendance Areas

Cities, CDPs, & District Attendance Areas

Cities, CDPs, & Elementary Attendance Areas

What is a “Community of Interest”?

- ***A population that shares common social or economic interests that should be included within a single election district for purposes of its effective and fair representation.***
- Characteristics of communities of interest may include, but are not limited to, shared public policy concerns such as education, public safety, public health, environment, housing, transportation, and access to social services.
- Characteristics of communities of interest may also include, but are not limited to, cultural districts, shared socioeconomic characteristics, similar voter registration rates and participation rates, and shared histories.
- Communities of interest do not include relationships with political parties, incumbents, or political candidates.

(Elections Code §21130(c)(2).)

Final Thoughts

- Does not change overall District boundaries
- Does not change school attendance boundaries
- **Does not** change how the District is governed:
 - Each Board member, regardless of the trustee area in which he/she resides, still owes fiduciary duty to entire District
 - Still one District with common goals and challenges!!!

- Each map was randomly assigned a number as a name (i.e., "Option 1," "Option 2," etc.)
- The number name of the map has nothing to do with the numbers of each trustee area on each map.
- Each map option has 5 balanced Trustee Areas.
- On each map:

- Trustee Area 1 is shaded in **YELLOW**
- Trustee Area 2 is shaded in **GREEN**
- Trustee Area 3 is shaded in **RED**
- Trustee Area 4 is shaded in **BLUE**
- Trustee Area 5 is shaded in **PURPLE**
