LP-5	Curriculum, Textbooks & Reference (Law & Public Safety)	6

Terms & Conditions (Summary — District Boilerplate Governs)

1. Bidders may bid on any one or more bid packages. Each package is evaluated and awarded independently to the lowest responsive, responsible bidder. The District reserves the right to reject any or all bids, waive minor irregularities, and award in the best interest of the District.
2. **PARTIAL BIDS:** On multi-item packages, bidders unable to supply every line item may submit a bid for only the items they can provide — identify those line items and price them. The District may award a package in whole, by line item, or by group of line items, in the District's best interest. Packages marked "Individual Bid" (PC-2, PC-7) must be bid complete, including installation and training where specified.
3. **"OR EQUIVALENT":** Brand or manufacturer names appearing in any line item denote a reference standard of quality, design, and performance only. Equivalent products approved by the District will be considered — bidders proposing an equivalent are encouraged to contact the bid contact PRIOR to the bid due date and must identify brand/model in the response column and attach specification sheets. The District is the sole judge of equivalency.
4. **Federal funding:** This procurement is funded with federal CDBG-DR funds administered by the State of California (HCD) and is subject to 2 CFR Part 200 procurement standards, including suspension/debarment certification. Awarded vendor must complete the district vendor packet and W-9.
5. **Pricing:** All prices F.O.B. Destination to the school site, freight prepaid and included (itemize if separate), California sales/use tax itemized separately. Prices firm for 90 days from bid opening.
6. Equipment shall be new, current-model, factory-warranted. Include manufacturer warranty terms. Include delivery, installation, calibration, and instructor training where specified in the line item.
7. Installation labor performed on district property may be subject to California prevailing wage requirements and contractor DIR registration.
8. No bid may be submitted, and no award made, to any party that participated in drafting these specifications.
9. Submit one (1) signed original of each bid package form by the due date, marked with the RFB number and package number(s). Email submissions must request a read receipt.

How to Respond

Complete the bidder columns (Brand/Model Offered, Unit Price, Extended Price, Notes/Exceptions) on each bid package form you wish to bid, complete the Bidder Certification block at the end of that package, and return the signed form(s) to the bid contact by the sealed-bid deadline above. Questions must be submitted in writing to the bid contact by the vendor-question deadline; answers affecting all bidders will be issued as written addenda.

BID PACKAGE PC-1 — PATIENT SIMULATION MANIKINS, SURROGATE MONITORS & RECORDING

Paradise USD — RFB No. RFP-PHSCTE-001. PARTIAL BIDS ACCEPTED — bid only the line items you can supply; the District may award by line item (Terms ¶2). Identify the brand/model offered for each line bid; contact the bid contact prior to the bid due date with any equivalency or specification questions.

Line	Item Description / Specification	Qty	Unit	BIDDER: Brand / Model Offered	BIDDER: Unit Price (\$)	BIDDER: Extended Price (\$)	BIDDER: Notes / Exceptions
1	Surrogate patient monitor / defibrillator simulation software license — tablet-based displays that mimic real patient monitors and defibrillators (premium screens incl. Zoll, LifePak, Philips), dynamic 12-lead ECG with arrhythmias/ectopics/artifacts, real-time AHA-compliant CPR feedback (rate/depth/recoil), configurable checklist assessment, scenario authoring with cloud content library, exportable simulation reports	4	EA				
2	Simulation hardware kit for surrogate monitor system — 12.9" monitor tablet, 10.2" controller tablet, Wi-Fi router, portable battery pack, simulation lead set, USB hub, protective cases (hard case + carry case)	4	EA				
3	Pulse/NIBP occlusion simulation device compatible with surrogate monitor system	4	EA				
4	Wireless, tetherless full-body adult ALS patient simulator, light skin tone — anatomically accurate intubatable airway (oral/nasal; ETT, supraglottic, OPA/NPA/NG/OG), CPR-capable chest with feedback integration, IV/IO/IM access sites, integrates with surrogate patient monitor ecosystem for AHA/ERC-compliant ALS training	2	EA				
5	Wireless, tetherless full-body adult ALS patient simulator, dark skin tone — same specification as above	2	EA				
6	Hard training legs for adult ALS simulator, light skin tone	2	EA				
7	Hard training legs for adult ALS simulator, dark skin tone	2	EA				
8	Pediatric ALS training simulator, dark skin tone — intubatable head with anatomically accurate airway, CPR-capable chest with lifelike compression movement, dedicated IV/IO/IM sites; supports AHA/ERC-compliant PALS training with surrogate monitor ecosystem	1	LOT				
9	Infant ALS training simulator, light skin tone — intubatable airway, CPR-capable chest, IV/IO/IM sites, umbilicus for neonatal umbilical catheter insertion	1	EA				
10	Hyper-realistic geriatric patient manikin based on full-body scan of a real person — CT-replicated internal airway anatomy (BVM, ETT/supraglottic intubation with chest rise, OPA/NPA/NG/OG adjuncts), bilateral humeral/tibial IO, anterior & axillary needle thoracostomy sites, realistic limb articulation, age-appropriate skin tone and elasticity; compatible with surrogate monitor CPR feedback	1	LOT				
11	Manikin service & support agreement, Year 1 — virtual support, guided preventative maintenance, specialty adhesives as needed, one comprehensive annual repair/refurbishment per covered manikin with two-way shipping	1	EA				
12	Virtual product training for surrogate monitor system	1	EA				
13	Smart IV medication sleeve with drug recognition and IV medication administration, including starter kit of simulated drugs (10 × 250 mL containers)	4	EA				
14	Simulated drug refill set (10 × 250 mL containers)	4	EA				
15	Mobile simulation video recording / debrief system with motion-tracking camera control	1	LOT				
16	Motion control device for simulation recording system	1	EA				
17	Freight / shipping	1	EA
