

Sep 22, 2025

Dear Parent or Guardian:

To maintain the aesthetic quality of the buildings and grounds of Hartland Consolidated Schools, it has become necessary to apply a herbicide to the grounds at your child's school. **Please understand that applications will not be happening every day.** The dates are given because factors such as wind, rain, and site usage will affect the exact date and time of the application. You will be able to tell that the application has been completed by the lawn signs that will be posted.

The product being used is Speed Zone for broadleaf weed control. A State-Certified applicator will be making the applications.

School: District Wide

Date of application: September 28th, weather permitting

Area to be treated: Building Fronts

Description of treatment: Liquid application of T-Zone.

If you have any questions or concerns, please contact the District's Operations Office at (810) 626-2185. For more pesticide information, call the National Pesticide Information Center at (800) 858-7378 or the Michigan Department of Agriculture and Rural Development at (800) 292-3939. Information may also be found on the web at www.npic.orst.edu

Sincerely,

Matt Marino

Director of Operations
Hartland Consolidated Schools
