

NOTICE OF AVAILABILITY
DRAFT 2045 NEVADA COUNTY REGIONAL TRANSPORTATION PLAN
AND
ADDENDUM TO THE 2017 SUPPLEMENTAL ENVIRONMENT IMPACT REPORT

The Nevada County Transportation Commission is pleased to announce the release of the Draft 2045 Nevada County Regional Transportation Plan (2045 RTP) and associated Addendum to the 2017 Supplemental Environmental Impact Report (SEIR).

Project Title: 2045 Nevada County Regional Transportation Plan (RTP)

Project Location: The 2045 RTP includes all of Nevada County that is under the jurisdiction of the Nevada County Transportation Commission (NCTC).

Project Description: The proposed Project is the adoption and implementation of the 2045 Nevada County Regional Transportation Plan (RTP). The RTP has been prepared to fulfill state requirements using specific guidance from the California Transportation Commission Regional Transportation Plan Guidelines. More specifically, the RTP is a twenty-year, comprehensive transportation plan for all modes of transportation. NCTC is required to adopt and submit an updated RTP to the California Transportation Commission (CTC) and the Department of Transportation (Caltrans) every five years. In addition, the RTP is used to document NCTC's priorities for transportation funding in the region. The RTP contains three primary elements: Policy Element, Action Element, and Financial Element. The purpose of this plan is to document Nevada County's short-term, and long-term regional transportation needs and set forth an effective, financially constrained action plan to meet these needs. The RTP documents the policy direction, actions, and funding strategies designed to maintain and improve the regional transportation system.

Significant Environmental Effects: The Addendum to the 2017 SEIR identified that the Draft 2045 RTP does not propose substantial changes that would cause impacts beyond those identified and analyzed in the adopted 2017 Final SEIR. The proposed modifications to the 2016 RTP that constitute the 2045 RTP would result in no new impact or mitigation information of substantial importance that would generate new, more severe impacts or require new mitigation measures compared to those identified for the 2016 RTP in the adopted 2017 Final SEIR.

Public Review Period: A 45-day public review period for the RTP and Addendum to the SEIR will commence on August 11, 2025 and end on September 25, 2025. Written comments may be transmitted via email to ahoyt@nccn.net, or via U.S. Mail to NCTC, Attn: Aaron Hoyt; 101 Providence Mine Rd, Suite 102, Nevada City, CA 95959. Comments may also be given at the public hearing scheduled for September 17, 2025 (see details in the "Public Hearing" section of

this NOA). Any written comments on the RTP and/or Addendum to the SEIR must be received within the public review period. If we do not receive a response from your agency or organization, we will presume that your agency or organization has no response to make.
